

As a paying customer of XM radio I feel it is not up to the National Assoc. of Broadcasters to try to dictate what I am permitted to hear. Satellite radio provides variety and quality that are not available elsewhere. Traffic and weather are an added benefit of this service.

It is my right as a citizen to be able to listen to what I want. XM radio is the way to go. I respectfully urge the FCC to reject NAB's petition 04-160 and to support XM's ability to provide the kind of programing that I demand and deserve. Thank you.
